

This is an example of a book review that a second grade student wrote about a book she was recommending to the class during our unit on adventure books. The book reviews were compiled into a book called "2-Purple Recommends" and kept in the library for students to use when choosing a new book to read.

Book Review: Adventure Books

Title: All about Sam

Author: _____

Give a short summary of what your book is about:

The book is about a boy named Sam
that has lot of adventure when he
starts to grow up.

Describe an adventure that a main character in your book has had: One

adventure that Sam had is when
he shared a pipe and the part
when he cutted his hairs, curls.

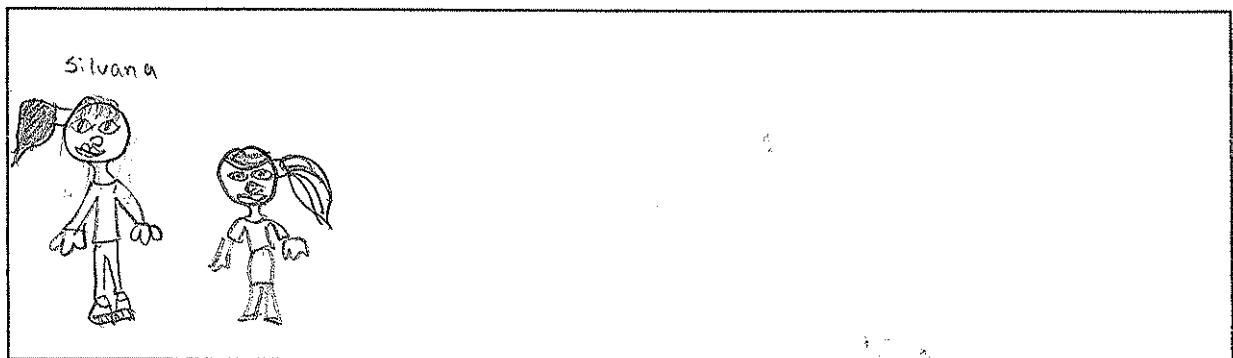

Compare that adventure to an adventure that the characters had in another book that you've read. Be sure to give the title of the other book.

my compare is Clifford the big red dog because Clifford hangs out with his friends and Sam hangs out with his family.

Would you recommend this book to a friend? Explain why or why not, using examples from the book.

I would recommend to Silvana and Deneise, because they hang out together and Sam and his sister hang out.
