

Dear Turtle,

I know you are afraid that you are going to die but you

aren't. If you want mud, you can

go outside, get a cup of water

and mix it until you will

get mud. You can go get

water from the sink, or you can

the water in the bathtub and

leave it on and you can

live in it. You can get

food from the Pet 3 and

fishes in a suit case and take

them with you to your new home

if you can't have these things

I will give you those

things too you
